

# Welcome to Web Fun w/ Kevin (Lead) & Robert

...

# Expectations

## During Class

- Start each meeting with cam on and muted
- Participate (emoji, chat, unmute)
- Engage in Q n A
- Make sure to either raise your emoji hand or send the question via chat
- Use Zoom Reactions (emoji) to answer T/F or Y/N questions.
- If you Cheat you Cheat yourself
- Take and Review Notes
  - [Ebbinghaus's Forgetting Curve](#)

## After Class

- Practice Newly learned fundamentals
- Spend time looking through Notes
- Ask 3 before me
  - Google results to problem in W3Schools, StackOverflow, Partner.
- Find your points of confusion and set up a 1 on 1 or ask on Discord.
- Find an accountability partner
  - Complete your Homework
  - Complete your Discussions ASAP

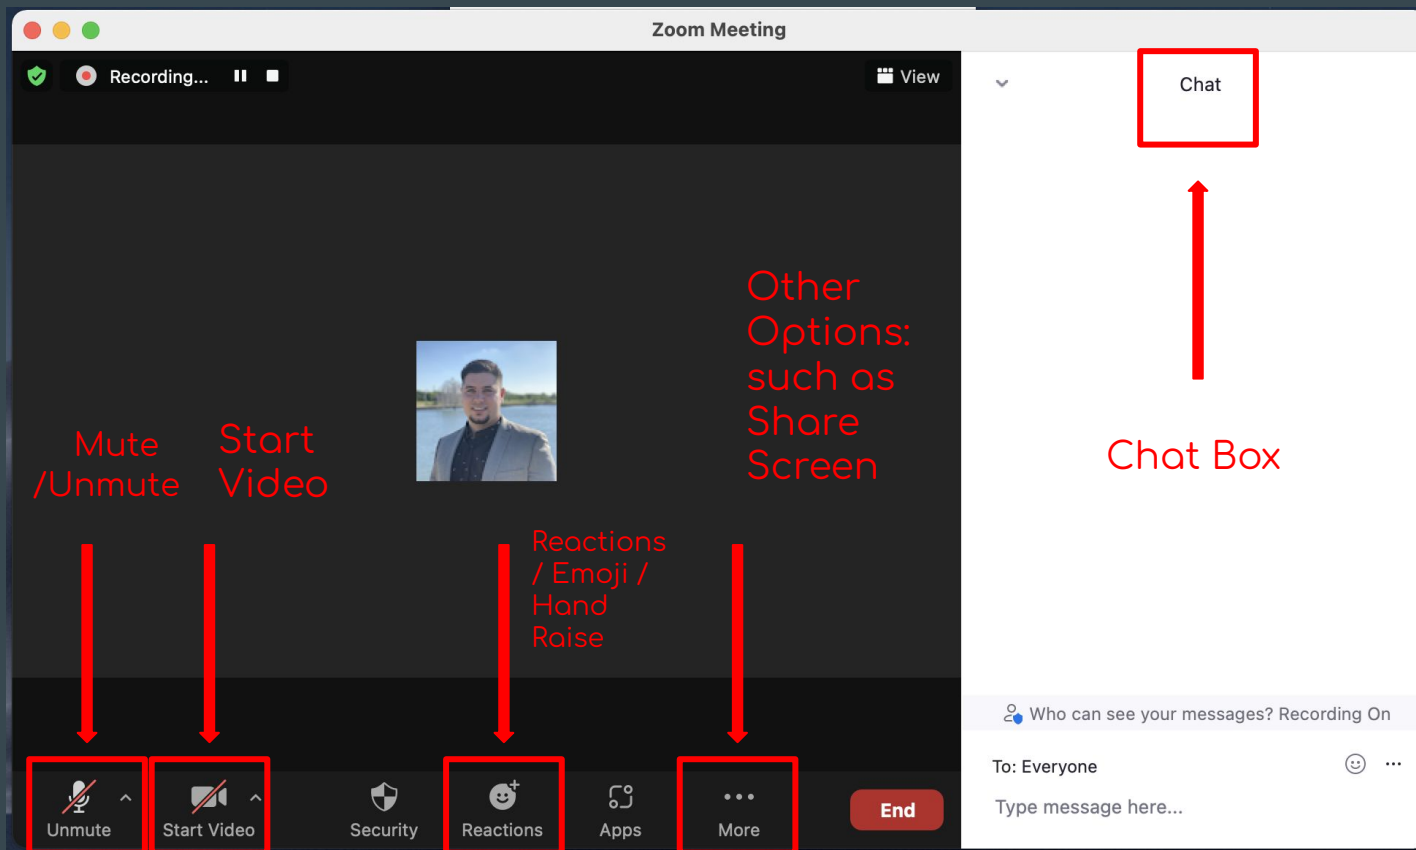

# Tips & Tricks

- Practice [Terminal](#)
- Practice [CSS](#)
- Practice [Flex-Box](#)
- Practice Git
- Practice [Emmet](#)
- 20-minute Rule
  - Use your tools !
  - [Google \(tutorial\)](#)
  - [W3Schools](#)
  - [Stack Overflow](#)
  - [Collaboration](#)
- [Color Picker](#)
- [VSCode Tutorial](#)

# Zoom

## Zoom Tutorial

# Discord

- Communication Tool
  - Ask Questions
  - Jump into #help, Ask Questions
  - Collaboration is Key !!
    - Helping others strengthens your knowledge and helps your partner
  - Discord Tutorial - [Video I used](#)
  - Don't be afraid to ask a question !! I guarantee others have the same question.
- Discord [LINK](#)

# 20 Minute Rule

1. Check Syntax use VS Code hints
  2. Use Console Log
    - a. Ex : `Console.log("Just did blank")`
  3. Google: Ask 3 before me
    - a. [W3Schools](#)
    - b. [Stack Overflow](#)
    - c. Other-Collaboration  
(Discord, Zoom, etc)
    - d. \*\*Important to create self-reliant programmers. This does not mean you should not ask questions, exhaust your resources, then ask.
- In a Real World Situation this translates well substitute Discord/zoom with coworkers, and substitute Instructors with Supervisor.
